

EPPP Feynman Study Plan

Organization week: June 22–28, 2026. Core study: June 29–November 1, 2026. Built for remembering: Feynman explanations, retrieval practice, section quizzes, domain quizzes, practice exams, repair days, and rest.

Core Rule

Each study block uses this sequence: read/listen/watch → explain in plain language → quiz → repair missed items → retrieve later. If you cannot explain it simply, it is not learned yet.

Organization Week

Day	Focus	Action
Mon Jun 22	Set up the system	Gather all EPPP books, flashcards, PowerPoints, audios, section quizzes, domain quizzes, practice exams, assessment exams, simulations. Make one folder per domain. Create a “wrong answers + why” notebook.
Tue Jun 23	Build the tracker	Record page counts for every domain, number of lectures/audio files, number of section quizzes, and domain quiz availability. Put page counts into the web-app tracker.
Wed Jun 24	Baseline + map weak areas	Take one full assessment or diagnostic in testing conditions if available. Do not study first. Log score by domain and write the top 3 weak areas.
Thu Jun 25	Create templates	Create one notes template: Big idea, terms, Feynman explanation, examples, what I confuse, quiz misses, memory hooks. Create flashcard rules and color code domains.
Fri Jun 26	Set the weekly rhythm	Block study windows in your calendar. Pick video sources for each domain. Decide what counts as “done” for reading, notes, quiz, review, and teach-back.
Sat Jun 27	Organized preview day	Skim table of contents for Clinical + Abnormal. Make page targets for Week 1. Watch one overview video. Light flashcard pass only.
Sun Jun 28	Rest + launch prep	Rest day. Only 20 minutes allowed: set out Monday materials, open tracker, write your reason for passing, sleep.

Domain Timeline Chart

Week	Dates	Domain	Primary output
1	Jun 29–Jul 5	Clinical Psychology Part 1	Notes + Feynman teach-back + quizzes + repair log
2	Jul 6–Jul 12	Clinical Psychology Part 2	Notes + Feynman teach-back + quizzes + repair log
3	Jul 13–Jul 19	Abnormal Psychology Part 1	Notes + Feynman teach-back + quizzes + repair log
4	Jul 20–Jul 26	Abnormal Psychology Part 2	Notes + Feynman teach-back + quizzes + repair log
5	Jul 27–Aug 2	Ethics	Notes + Feynman teach-back + quizzes + repair log
6	Aug 3–Aug 9	Industrial/Organizational Psychology	Notes + Feynman teach-back + quizzes + repair log
7	Aug 10–Aug 16	Learning Theory	Notes + Feynman teach-back + quizzes + repair log
8	Aug 17–Aug 23	Lifespan Development	Notes + Feynman teach-back + quizzes + repair log
9	Aug 24–Aug 30	Physiological Psychology & Psychopharmacology Part 1	Notes + Feynman teach-back + quizzes + repair log
10	Aug 31–Sep 6	Physiological Psychology & Psychopharmacology Part 2	Notes + Feynman teach-back + quizzes + repair log
11	Sep 7–Sep 13	Psychological Assessment Part 1	Notes + Feynman teach-back + quizzes + repair log
12	Sep 14–Sep 20	Psychological Assessment Part 2	Notes + Feynman teach-back + quizzes + repair log
13	Sep 21–Sep 27	Social Psychology	Notes + Feynman teach-back + quizzes + repair log
14	Sep 28–Oct 4	Statistics	Notes + Feynman teach-back + quizzes + repair log
15	Oct 5–Oct 11	Test Construction	Notes + Feynman teach-back + quizzes + repair log
16	Oct 12–Oct 18	Integration + Weak Areas	Notes + Feynman teach-back + quizzes + repair log
17	Oct 19–Oct 25	Practice Exams + Repair	Notes + Feynman teach-back + quizzes + repair log
18	Oct 26–Nov 1	Final Exam Simulations	Notes + Feynman teach-back + quizzes + repair log

Domain Materials Chart

Domain	Weeks	Use all materials this way
Clinical Psychology	2	book chapters, PowerPoints, audio, flashcards, notes, section quizzes, domain quiz
Abnormal Psychology	2	DSM/diagnosis readings, lectures, audio, flashcards, section quizzes, domain quiz
Ethics	1	ethics book, code/decision models, PowerPoints, audio, flashcards, section quizzes, domain quiz
Industrial/Organizational Psychology	1	I/O book, lectures, audio, flashcards, section quizzes, domain quiz
Learning Theory	1	learning theory book, behaviorism/cognition notes, videos, flashcards, quizzes
Lifespan Development	1	development book, milestone charts, audio, flashcards, quizzes
Physiological Psychology & Psychopharmacology	2	physio + psychopharm books, neuro charts, med classes, videos, flashcards, quizzes
Psychological Assessment	2	assessment book, test tables, PowerPoints, audio, flashcards, section/domain quizzes
Social Psychology	1	social psych book, classic findings, PowerPoints, flashcards, quizzes
Statistics	1	stats book, formula sheet, worked examples, videos, flashcards, quizzes
Test Construction	1	test construction book, reliability/validity charts, practice questions, domain quiz

Weekly Daily Template

Day	Purpose	What to do
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Daily Non-Negotiables

- Flashcards: 15–25 minutes on study days; 10 minutes on rest days if you have energy.
- Feynman: explain one idea out loud every study day without looking.
- Wrong-answer notebook: no missed question disappears without a repair note.
- Videos/audio: use them after reading to reinforce, not as a replacement for retrieval.
- Rest days are part of the plan; they protect memory consolidation.

Week 1: Clinical Psychology — Part 1 of 2 (Jun 29–Jul 5)

Materials: book chapters, PowerPoints, audio, flashcards, notes, section quizzes, domain quiz

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 2: Clinical Psychology — Part 2 of 2 (Jul 6–Jul 12)

Materials: book chapters, PowerPoints, audio, flashcards, notes, section quizzes, domain quiz

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 3: Abnormal Psychology — Part 1 of 2 (Jul 13–Jul 19)

Materials: DSM/diagnosis readings, lectures, audio, flashcards, section quizzes, domain quiz

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.

Day	Focus	Task
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 4: Abnormal Psychology — Part 2 of 2 (Jul 20–Jul 26)

Materials: DSM/diagnosis readings, lectures, audio, flashcards, section quizzes, domain quiz

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 5: Ethics (Jul 27–Aug 2)

Materials: ethics book, code/decision models, PowerPoints, audio, flashcards, section quizzes, domain quiz

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 6: Industrial/Organizational Psychology (Aug 3–Aug 9)

Materials: I/O book, lectures, audio, flashcards, section quizzes, domain quiz

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.

Day	Focus	Task
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 7: Learning Theory (Aug 10–Aug 16)

Materials: learning theory book, behaviorism/cognition notes, videos, flashcards, quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 8: Lifespan Development (Aug 17–Aug 23)

Materials: development book, milestone charts, audio, flashcards, quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 9: Physiological Psychology & Psychopharmacology — Part 1 of 2 (Aug 24–Aug 30)

Materials: physio + psychopharm books, neuro charts, med classes, videos, flashcards, quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 10: Physiological Psychology & Psychopharmacology — Part 2 of 2 (Aug 31–Sep 6)

Materials: physio + psychopharm books, neuro charts, med classes, videos, flashcards, quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 11: Psychological Assessment — Part 1 of 2 (Sep 7–Sep 13)

Materials: assessment book, test tables, PowerPoints, audio, flashcards, section/domain quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.

Day	Focus	Task
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 12: Psychological Assessment — Part 2 of 2 (Sep 14–Sep 20)

Materials: assessment book, test tables, PowerPoints, audio, flashcards, section/domain quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 13: Social Psychology (Sep 21–Sep 27)

Materials: social psych book, classic findings, PowerPoints, flashcards, quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a “things I keep mixing up” list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 14: Statistics (Sep 28–Oct 4)

Materials: stats book, formula sheet, worked examples, videos, flashcards, quizzes

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.

Day	Focus	Task
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 15: Test Construction (Oct 5–Oct 11)

Materials: test construction book, reliability/validity charts, practice questions, domain quiz

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 16: Integration + Weak Areas (Oct 12–Oct 18)

Materials: mixed-domain review, incorrect-question notebook, memory retrieval

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 17: Practice Exams + Repair (Oct 19–Oct 25)

Materials: full assessment exams, targeted repair, timed stamina

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.

Week 18: Final Exam Simulations (Oct 26–Nov 1)

Materials: simulation exams, ethics/statistics refresh, calm confidence

Day	Focus	Task
Monday	Orientation + first pass	Read/listen/watch the first chunk. Make simple notes only. End with a 10-minute Feynman explanation out loud.
Tuesday	Deepen + section quiz	Read the next chunk. Convert notes into memory hooks and flashcards. Take section quiz 1 or the next available section quiz.
Wednesday	Teach-back + application	Use PowerPoint/audio to reinforce. Teach the topic like explaining it to a smart friend. Do 25-40 practice questions.
Thursday	Finish new content	Finish the domain/week reading target. Update notes. Make a "things I keep mixing up" list.
Friday	Section quizzes + repair	Take remaining section quizzes for this week. Review every miss: why wrong, why right answer is right, memory cue.
Saturday	Domain review + domain quiz	Take the domain quiz or a mixed set if domain quiz is not ready. Build a one-page domain map. Feynman teach-back 20 minutes.
Sunday	Rest + light retrieval	Rest day. Optional only: 20-30 minutes flashcards/wrong-answer review. No heavy new content.
