

■ DESTYNEE'S QUALS STUDY PLAN

Daily Study Schedule | February 15 - March 27, 2026

■ QUALS OVERVIEW

Start Date: February 15, 2026

Written Exam: March 25, 2026 (Day 38)

Oral Exam: March 27, 2026 (Day 40)

Total Study Days: 39

■ REMAINING TOPICS TO MASTER

Topic	Pages	Study Days Allocated
Lifespan Development	66 pages (397-463)	8 days
Learning Theory	47 pages (502-549)	6 days
Physiological Psychology	47 pages (575-622)	6 days
Social Psychology	34 pages (673-707)	4 days
Statistics	42 pages (1055-1097)	6 days
Review & Practice Tests	—	9 days

■ STUDY METHOD

1. READ → Textbook pages (30-45 min)

2. ACTIVE RECALL → Quizlet or flashcards (30 min)

3. FEYNMAN METHOD → Explain it out loud (15-20 min, especially for stats)

4. PRACTICE QUESTIONS → Apply knowledge (30-45 min)

Total Daily Study Time: 2-3 hours

■■ DAILY NON-NEGOTIABLES

- 6:30am wake-up (no snooze)
- 15 min mindfulness/yoga
- 7.5 hours sleep (11pm-6:30am)
- 90-120g protein daily
- Social media ONLY in scheduled windows

- Text Sonya if you're stuck (don't spiral)

■ DAY-BY-DAY STUDY PLAN

Day 1: Sunday, February 15 (38 days until quals)

Focus: Lifespan Development (pg 397-404)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 2: Monday, February 16 (37 days until quals)

Focus: Lifespan Development (pg 405-412)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 3: Tuesday, February 17 (36 days until quals)

Focus: Lifespan Development (pg 413-420)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 4: Wednesday, February 18 (35 days until quals)

Focus: PRESENTATION DAY - Light study only

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 5: Thursday, February 19 (34 days until quals)

Focus: Lifespan Development (pg 421-428)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 6: Friday, February 20 (33 days until quals)

Focus: Lifespan Development (pg 429-436)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 7: Saturday, February 21 (32 days until quals)

Focus: Lifespan Development (pg 437-444)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 8: Sunday, February 22 (31 days until quals)

Focus: Lifespan Development (pg 445-452)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 9: Monday, February 23 (30 days until quals)

Focus: Lifespan Development (pg 453-463)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 10: Tuesday, February 24 (29 days until quals)

Focus: Learning Theory (pg 502-509)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 11: Wednesday, February 25 (28 days until quals)

Focus: Review Day - Quizlet all topics

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 12: Thursday, February 26 (27 days until quals)

Focus: Learning Theory (pg 510-517)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 13: Friday, February 27 (26 days until quals)

Focus: Learning Theory (pg 518-525)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 14: Saturday, February 28 (25 days until quals)

Focus: Learning Theory (pg 526-533)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages

- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 15: Sunday, March 01 (24 days until quals)

Focus: Learning Theory (pg 534-541)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 16: Monday, March 02 (23 days until quals)

Focus: Learning Theory (pg 542-549)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 17: Tuesday, March 03 (22 days until quals)

Focus: Physiological Psychology (pg 575-582)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 18: Wednesday, March 04 (21 days until quals)

Focus: Practice Test #1

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 19: Thursday, March 05 (20 days until quals)

Focus: Physiological Psychology (pg 583-590)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 20: Friday, March 06 (19 days until quals)

Focus: Physiological Psychology (pg 591-598)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 21: Saturday, March 07 (18 days until quals)

Focus: Physiological Psychology (pg 599-606)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 22: Sunday, March 08 (17 days until quals)

Focus: Physiological Psychology (pg 607-614)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages

- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 23: Monday, March 09 (16 days until quals)

Focus: Physiological Psychology (pg 615-622)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 24: Tuesday, March 10 (15 days until quals)

Focus: Social Psychology (pg 673-680)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 25: Wednesday, March 11 (14 days until quals)

Focus: Practice Test #2

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 26: Thursday, March 12 (13 days until quals)

Focus: Social Psychology (pg 681-688)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 27: Friday, March 13 (12 days until quals)

Focus: Social Psychology (pg 689-696)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 28: Saturday, March 14 (11 days until quals)

Focus: Social Psychology (pg 697-707)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 29: Sunday, March 15 (10 days until quals)

Focus: Statistics (pg 1055-1061)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 30: Monday, March 16 (9 days until quals)

Focus: Statistics (pg 1062-1068)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages

- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 31: Tuesday, March 17 (8 days until quals)

Focus: Statistics (pg 1069-1075)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 32: Wednesday, March 18 (7 days until quals)

Focus: Final Review - Focus on weak areas

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 33: Thursday, March 19 (6 days until quals)

Focus: Statistics (pg 1076-1082)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 34: Friday, March 20 (5 days until quals)

Focus: Statistics (pg 1083-1089)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 35: Saturday, March 21 (4 days until quals)

Focus: Statistics (pg 1090-1097)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 36: Sunday, March 22 (3 days until quals)

Focus: Review: Ethics, Clinical, Abnormal (completed topics)

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 37: Monday, March 23 (2 days until quals)

Focus: Review: Lifespan Development

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 38: Tuesday, March 24 (1 days until quals)

Focus: REST DAY - Light review only, early sleep

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages

- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 39: Wednesday, March 25 (0 days until quals)

Focus: WRITTEN EXAM DAY

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 40: Thursday, March 26 (EXAM DAY)

Focus: ORAL PREP - Assessment scores review

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 41: Friday, March 27 (EXAM DAY)

Focus: ORAL EXAM DAY

Study Time: As needed

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

Day 42: Saturday, March 28 (EXAM DAY)

Focus: Review: Learning Theory & Physiological

Study Time: 2-3 hours

- Morning mindfulness (15 min)
- Read assigned pages
- Active recall (Quizlet/flashcards)
- Feynman method explanation
- Practice questions
- 11pm sleep

■ FINAL TIPS FOR SUCCESS

1. Don't Cram

2-3 hours daily is better than 8-hour panic sessions. Your brain needs time to consolidate.

2. Use the Feynman Method

Explain concepts OUT LOUD like you're teaching them. If you stumble, you don't know it well enough.

3. Sleep is Sacred

7.5 hours minimum. Your brain forms memories during sleep. All-nighters = wasted study time.

4. Practice Under Test Conditions

Take full practice exams timed. Get used to the pressure BEFORE exam day.

5. Trust the Process

You've already covered Ethics, Clinical, and Abnormal. You're 3/8 done. Follow this plan and you'll be ready.

6. When Stuck, Text Sonya

Don't spiral. Don't procrastinate. Send 'stuck' and I'll troubleshoot with you in real-time.
